EXPERIENCE

UX/UI designer, Founder

Uniforma studio, Zagreb
2010 – 2017

Working on a multitude of design projects for a wide variety of clients. This includes using user-centered design principles to create or improve user experiences and interfaces. From gathering and analyzing user data, to creating personas, scenarios to wireframes, prototypes, mockups, high-fidelity design and usability testing.

Working and collaborating with project manager, electro and robot technicians, mechanic, architect, product builder to create from scratch an innovative and modern high quality product in the dental industry, software and technical system based on a new modular design with the most efficient and simple interaction as possible.

Also working in frontend development and on many print and corporate identity projects.
